

The Unmanned Aircraft Systems (UAS) is today the most dynamic sector within the aviation industry. UNC-11 takes a closer look at ongoing Beyond Line of Sight Operations in the Nordic region. UNC-11 also addresses sensor technologies and a range of UAS applications.

Key note Speakers Gilles Fartek (Integra) and Peter van Blyenburgh (UVS International)

*UNC-11 will take place on **November 15th 2011** at the Oslo Kongressenter which is located close to the Central Station. Registration opens at **08:30** and the conference ends at **17:00**.*

Conference fees (includes lunch and coffee)

Normal fee	NOK 2800,-
Military, government and members of UAS Norway	NOK 2000,-
Students with student ID	NOK 1000,-

For registration and payment please see www.uasnorway.org, or contact Conference Director at torolav@online.no.

Beyond Line Of Sight Operations - Experiences and challenges

UAS as a freight concept, Julian Hassinsky - Cassadian Systems, UK

A practical Detect and Avoid System, Michael Naderhirn - Aerospy, Austria

New regulations emerging in Europe, Professor Anders La Cour Harbo, Aalborg University, Denmark

AMAP, Rune Storvold - Norut

Arctic UAV, a Nordic collaboration project, Einar Johansen - Simicon

Safety & Security: Getting to the next level, TBA - Presaegis Inc

Operational Experience

Approving BLOS operations in Norway, Morten Raustein - CAA Norway

Conforming to safety standards, Knut T Moe - Ansur Technologies

Civilian and Military Applications

Military experience for the civilian sector, TBA - Norwegian Air Force

UAS in astronomical research, Knut Jørgen Røed Ødegaard - University of Oslo

Contractorised UAS operations, Andy White - QinetiQ

Experiences with catapult launched LR UAV's, Jack Kaady - Insitu

UAS for energy line inspections, Dr. Ing. Armin Brandstetter - Cassadian, Germany

Sensor Technologies

Export control for UAS technologies, Asgeir Berg - Ministry of Foreign Affairs

SIRIUS II: An integrated Orthofoto UAS, M.Sc. Johanna Born- MAVinci UG UAS

AVOID the ash!, Dr Fred Prata - NILU Kjeller, Norway

Conference Moderator

Maj Gen (R) Per-Oscar Jacobsen - UAS Norway

Version 3, Subject to Changes

UAS Nordic Conference 2011

Sponsorship and Exhibition Opportunities

The Venue

The Oslo Kongressenter is a modern conference venue with more than 20 meeting rooms and conference halls.

- 35 minutes from Oslo Airport
- 7 minute walk from Oslo Central Station
- Close to car parking
- [Rica Hotel](#) partner

The Auditorium seats 180 people with adjacent exhibition and networking area. Coffee and refreshments will be served in the same area. Lunch will be served in the Spiseriet Henrik on the 3rd floor.

Sponsorship

The sponsorship package is priced at **NOK 5000,-** and includes the following:

- Logo on the Conference Folder
- Logo on the PowerPoint slides showed during breaks
- Logo on UNC-10 webpage for one year (post conference)
- Inclusion of marketing material (up to 5 pages, max A4 format) in the Conference Folder

If this is of interest please contact Knut T Moe at knut@ansur.no no later than **Monday November 7th**. Please also then attach a high resolution image of your logo in either JPG or PNG format.

Exhibition

We can offer one exhibition slot priced at **NOK 2000,-**. Each slot consists of a table, two chairs and 220 VAC power and is suitable for presenting a small UAS, laptop and other marketing material. The exhibition area will be available from 08:00 to 17:00 on the conference day.

The exhibition area is located adjacent to the conference auditorium.

If this is of interest please contact Knut T Moe at knut@ansur.no no later than **Monday November 7th**. As we have a limited number of exhibition slots available, the "first come, first serve" principle applies.
